

REPORT TO THE EHFC 2023 ANNUAL GENERAL MEETING

Introduction:

The Environmental Health Foundation of Canada (EHFC) is the Charitable Division of the Canadian Institute of Public Health Inspectors (CIPHI). The EHFC was founded in 1989 by motion of the CIPHI membership at their annual general meeting. The EHFC is a “working board” made up of volunteer trustees who support environmental public health education and research through collaboration, connection, and recognition with internal and external partners. The board has a hands-on role with the administrative functions of the organization such as financial management, strategic planning, social media, and fundraising. The financial resources of the Foundation on **December 31, 2022**, including investments totaled **\$183,719.74** which represents a **\$8,275.75** decrease in EHFC assets compared to the 2021 year-end. This was due in part to the Board's decision to invest in the purchase of additional fundraising marketing products and the cost of software to support and produce content and maintain the charity's website and social media sites. Approximately 625,000 people die each year and 240+ million fall ill; 70% of them are children under 5; #1 killer of pregnant women; Malaria is preventable; 100% of public donations buys long-lasting insecticidal nets (LLINs) which each cost \$2.00 US; the Against Malaria Foundation works with distribution partners to distribute nets and ensure use as intended and conduct net use surveys and track monthly malaria data.

The EHFC Board also donated \$2500 to Ryans Well Foundation to support clean drinking water. A third of the world's population (over 2 billion people) lack access to improved sanitation, and women and girls spend 200 million hours every day collecting water. One in every nine people on the planet lack access to safe water.

Student Bursary to Attend CIPHI National AEC:

Since 2010, the EHFC Board has sponsored 92 students to attend the National CIPHI Annual Education Conference totaling \$20,125 in financial support, thanks to our donors. The Board of Trustees has approved a \$5,000 bursary (dependent on funds being raised) to financially support students or new graduates from the CIPHI accredited schools to attend the 2022 CIPHI National AEC, Ajax, ON by covering the cost of their student conference registration. One of the graduates received two job offers because of her networking at the conference.

Below left to right are the recipients of the 2022 bursary: Rebecca Yan Ho (TMU), Zachary Ramdayal (TMU), Marcia Hawthorne (CBU), Pritika Dadhich (CBU), and Omo Idedia (CBU).

TempSafe Products:

The EHFC have for sale the TempSafe® educational food safety materials which are available in magnets, clings, stickers, lapel buttons and large display formats. There is an option to include health agency information at the top of the product chosen for a nominal fee. The products are currently available in English, French and Spanish. The Board continues to offer large discounts for orders of 1,500 or more which allows for health agencies to combine orders to take advantage of the savings. A sample of the products can be mailed to interested agencies. The EHFC receives a small percentage of all sales from the current printer as a source of unrestricted revenue to cover administration costs.

In 2022, the Board received a large order from First Nations and Inuit Health Branch, Indigenous Services Canada, Manitoba. The EHFC Board will be carrying out a survey of past users in 2023 to determine if this project is still viable for public health authorities and seeking other potential purchasers such as Canadian grocery retailer chains and private food handler training course services.

Fundraising:

The Board's 2022 fundraising goal was set at \$10,000. The funds raised were entrusted and used to financially support future annual environmental public health aid project(s) in Canada and/or internationally, and for a bursary to financially support students to attend the CIPHI national annual education conference. As of December 31, 2022, the Board raised \$8,032 (80% of the goal).
